Teamwork that works.  
For everyone. Everywhere.

**It's just that easy.**

Too much time is lost to making technology work. To figuring out different spaces and different configurations. Zoom and Crestron Flex believe that work is hard enough. Collaborating shouldn't be. So no matter where you meet or how many people you meet with, you can keep your teams connected with one touch, one experience, and one solution.

## Meetings

Join anywhere from any device. Meetings are easy to start, simple to join. One touch puts one flawless, frictionless experience at your fingertips.

## Video Webinars

Share your presentation with 10, 100, or even 1,000. And know everyone, anywhere in your organization can present efficiently and confidently with one simplified solution.

## Conference Rooms

One touch join. One click share. One consistent experience in every room, anywhere.

# Simple to deploy. Easy to use.

## From IT to C-Suite — it's just this simple.

- ✔ **One solution**  
Zoom software natively integrated into Crestron hardware.
- ✔ **One consistent experience**  
Engineered to deliver flawless video, crystal clear audio, and instant sharing.
- ✔ **One-touch simplicity**  
Any room, anywhere, every presentation is just one click away.
- ✔ **One platform**  
Every device deployed, managed, and maintained on one cloud-based platform built in Microsoft Azure™.
- ✔ **One connection**  
24/7 support anywhere and everywhere you may be.

CONNECT.

COORDINATE.

COLLABORATE.

### It's just that easy.

Crestron Flex natively supports Zoom on every device, everywhere people work. No matter which form factor you choose, the experience is the same—flawless.

Zoom delivers a streamlined user experience from phone to conference room. Crestron supports Zoom scheduling simplifying the reserving, display and scheduling using your current calendar system, so there is only one system for IT to manage and for the end user to understand.

## Only Flex Can.

## Tabletop Devices

# Crestron Flex M-Series

Hours of preparation go into every meeting. Hundreds of hours of engineering expertise go into making those meetings flawless. With Crestron Flex M-Series, last minute meetings, global team huddles, and boardroom strategy sessions start with a single touch. Every element is seen and heard – every participant, every piece of richest content.

## Key Features

Powerful software	<ul style="list-style-type: none"><li>- Zoom software built-in: present, call, and collaborate</li><li>- Onscreen availability and meeting details - one-touch joins</li></ul>
Crestron XiO Cloud	<ul style="list-style-type: none"><li>- Easy to provision and manage from Crestron XiO Cloud</li><li>- Securely connects to network</li></ul>
Incredible Audio	<ul style="list-style-type: none"><li>- Isolated acoustic reduces rattling and raspy voices</li><li>- Quad array microphones with 20" range, pick up every voice at the table</li></ul>
Intelligent 4K Camera	<ul style="list-style-type: none"><li>- People counting</li><li>- Provides light optimization, auto white balance, and automatic lossless digital zoom to intelligently frame participants</li></ul>

# Room Scheduling

The modern workplace is fast-paced, flexible, and dispersed. You need a scheduling platform that not only keeps up with you, but makes everyone more efficient, connected, and collaborative across all spaces while meeting your booking requirements. Crestron makes it simple and convenient to locate and book available meeting spaces from wherever you are; on your mobile, outside the room, or inside the room. The system directly connects to the Zoom platform, so people can book rooms on the spot. And the system is intelligent enough to return rooms to inventory when employees no-show, thereby optimizing usage.

## A SMART WORKPLACE STARTS WITH A SMART SCHEDULING SYSTEM

## IoT-Based platform

Winner of the 2018 Microsoft Global Partner of the Year Award for IoT, Crestron XiO Cloud is a revolutionary IoT-based service that enables you to securely deploy, proactively manage, monitor, and evolve workplace technology anywhere in the world through a standard web browser, and reduce associated complexities.

Hosted on the Microsoft Azure® IoT platform, and natively built into Crestron products, Crestron XiO Cloud delivers up to 90% reductions in installation time and dramatic improvements in device uptime. Most routine maintenance tasks, such as logo updates, can be performed from anywhere, automatically. Data gathered by Crestron XiO Cloud enables you to match new technology investments to actual usage and optimize your budgets.

[Learn more: crestron.com/xiocloud](https://crestron.com/xiocloud)

**SUPPORTS** AES, TLS, 802.1X, and Active Directory® credential management

### **Deploy quickly**

Reduce installation time by up to 90%

### **Manage remotely**

Update settings and firmware from anywhere via the centralized dashboard

### **Monitor instantly**

Resolve events remotely to improve device uptime

### **Evolve confidently**

Make sure your workplace technology supports how people work

# 48%

of organizations say they adopted cloud-based services because it's a better cost model compared to traditional deployment methods.
